## A GENERAL OVERVIEW

At Avis Fleet Services, we are continuously on the lookout for ways to integrate our products and services to ensure a seamless and trouble-free, fleet-management solution for our customers.

### **Choosing Avis Fleet Services**

Choosing Avis Fleet Services means you are assured of a flexible and professional fleet-management offering. Avis Fleet Services pioneered the “full-maintenance lease” concept 30 years ago and remains one of the few companies in South Africa to qualify for SABS ISO 9001 accreditation. You’ll find extensive coverage in all the major centres in South Africa, Namibia, Botswana, Mozambique, Lesotho and Swaziland.

Our diverse strengths make it possible for us to implement cost-effective solutions which drive down the cost of ownership of vehicle fleets. Our flexible range of options and fleet management services can be tailor-made to suit your every requirement.

### **Full Maintenance Leasing means we maintain the vehicle too**

A Full Maintenance Lease gives you the use of the vehicle(s) of your choice, for a pre-determined period and distance. We assume the risk of ownership which means you buy usage only – leaving the risk of ownership, maintenance and resale to us.

### **Operational Lease with Managed Maintenance: We help you to maintain your vehicle**

Choosing this option means we source and finance the right vehicle(s) for your unique needs. You take care of maintenance but we help you manage and control the maintenance thereby ensuring you are free of all ownership and resale risks.

### **Maintenance Contract: Keeping you on the road**

With an Avis Fleet Services Maintenance Contract, we manage, control and pay for all your fleet maintenance requirements and ensure hassle free motoring.

### **Managed Maintenance: Monitoring your expenses**

If you prefer to retain ownership of your fleet, this option means your fleet maintenance will be monitored by experts – keeping a watchful eye on your moving assets.

### **Sale and Leaseback - a capital advantage**

Free up your company’s resources and let Avis Fleet Services buy, maintain and manage your entire fleet – leaving you free to focus on your core business.
